Work experience

WEB DEVELOPER · 03/2024-Present · Wordpress, Prestashop, CraftCMS

- **Web Development with Multiple Technologies:**
  - Experience with WordPress, Prestashop, CraftCMS, and web development using HTML, CSS, JS, and pure PHP.
  - Self-taught in integrating and quickly learning new technologies by consulting technical documentation.
- **Web Performance Improvement:**
  - Conducted Core Web Vitals audits, optimizing key metrics such as Accessibility, SEO, Best Practices, and Performance, achieving a 90/100% score.
- **Website Maintenance:**
  - Maintenance and updates of websites built with WordPress and Prestashop, enhancing functionality and ensuring proper operation.
- **Custom Feature Development:**
  - Created new features and functionalities for websites using JavaScript and PHP, implementing custom solutions based on client requirements.
- **Web Design Issue Resolution:**
  - Identified and fixed design issues in CSS, including off-screens and responsive design problems, ensuring proper display on mobile devices.
- **Internationalization and Multilingual Content Management:**
  - Led the migration of an e-commerce site to multiple languages (French) using Prestashop's multi-store feature, expanding the audience without service interruptions.
- **Planning and Problem Prevention:**
  - Developed strategic planning before project implementation, creating outlines and assessing potential issues to minimize or prevent them.
- **jQuery Development and Form Validation:**
  - Implemented interactivity and form validation on websites using jQuery and libraries like jQuery Validate to ensure a smooth and secure user experience.

WORDPRESS DEVELOPER TRAINEE · 02/2023-06/2023 · Wordpress, SQL and PHP

- **Develop with popular plugins for Wordpress:**
  - I have used popular plugins such as DIVI, TutorLMS, WooCommerce and Stripe. On the other hand I learned how to modify the plugins internally for the client's liking.
- **Security for Wordpress:**
  - Apply several security methods such as backups, changing the wp_ prefix and keeping plugins updated.
- **Linux and Command Line Skills:**
  - Increasing my knowledge of Linux, FTP and SSH in the command line.
- **Self-taught and manage time:**
  - I have learned to manage my time, to be proactive and to be self-taught since the internship was done remotely.

Objectives

- Develop scalable and efficient web applications.
- Implement innovative solutions.
- Optimize performance and user experience on all platforms.
- Continue learning new technologies

Technologies

- PrestaShop, WordPress, CraftCMS, Astro, Angular and Laravel
- JavaScript, JQuery and PHP
- HTML, CSS and Any framework of CSS
- SQL and UML diagrams
- Linux Command line, FTP and SSH
- Quickly adapt to and comprehend documentation.

Education & Certificates

- Advanced Technical Degree in Web Application Development
- Vocational Training in Electrical Engineering
- Driver's license B
- English - Duolingo Certificate

Languages

- Spanish - Native
- English - Intermediate/high
- Catalá - Advance
